About Me

I'm a self taught, aspiring front end web developer. I currently build my projects using React, however I've started to learn Next.js and TypeScript.

Throughout the years I've kept web development as a hobby, something I did in my spare time because I enjoyed doing it; however I'm at a point in my life where I'm ready use the skills I've learned and start off my career.

Key Technologies

- HTML 5
- CSS3
- Javascript / ES6
- React.js
- Styled Components
- Responsive / Mobile first development

Learning

- TypeScript
- Next.js
- Jest / React testing library
